

## 2008 first half sales: +7 %

24 July 2008

Securidev had consolidated sales in the 2008 first half of €86.9 million compared with €81.3 million in the same period last year, up 7%. This growth was driven by the good performance of the B-to-B division that remained in line with targets.

In millions of euros	30 06 08	30 06 07	Change
B-to-B division	55.01	50.00	+10 %
B-to-C division	31.94	31.28	+2 %
Total	86.96	81.28	+7 %

- B-to-B: sales of this division overall remained sustained, benefiting from the positive impact of the launch of new products and contributions from major accounts;
- B-to-C: this division registered growth of 2% in the first half despite the downturn in construction and renovation in the real estate market.

Sales from international operations accounted for 65% of total revenue.

Based on these trends, management considers the target for annual sales growth in the range of 5% as reasonable.
